

Faster-than-ever MPO testing

Certify MPO-12 cables at 2 wavelengths in just **1** SECOND

PXM/LXM
MPO OPTICAL LOSS
TEST SET (OLTS)
TIER-1 CERTIFIER

Get the length, loss, correct polarity type and error-free referencing for single or multimode fibers

- Dual wavelength on light source
- Insertion loss measurement
- Polarity type validation
- Comprehensive pass/fail results on one page
- Up to 25 km in length measurement
- On-board certification standards with dynamic loss calculator
- 3-year calibration interval

Industry's fastest
test speeds

Hybrid contactless
connector (PXM)

4-inch color
touchscreen

In-line visual fault
locator (VFL)

3-year
calibration

Long battery
life

EXFO's proven
robustness

Field-replaceable
battery
