

Design, validate, deliver **1.6T**

BA-1600-OSFP

The **BA-1600-OSFP** delivers up to 3.2T test capacity with two independent 1.6T OSFP ports, optimized for cable and transceiver validation.

Full lifecycle validation for 1.6T, 800G and 400G across lab, fab and live environments

Test two 1.6T transceivers or cables with dual OSFP ports

OSFP

Superior hardware design: native OSFP interfaces, excellent signal quality, clean eye diagram and low error floor

BLER testing methodology enabled by FEC generation and analysis
